## Insight :

**IntelliDoc** is a smart document analysis platform powered by AI, designed to simplify how you handle files. Whether it's an insurance policy, legal contract, or academic report, IntelliDoc can instantly detect the type of document and generate a clear, concise summary.

It operates using **Gemini 2.5 Pro**, one of the latest and most advanced AI models for language understanding. For added accessibility, IntelliDoc features a voice assistant powered by **pyttsx3**, allowing users to hear document summaries read aloud.

With support for multiple formats like PDF, Word, and text files, it transforms unstructured data into clear, actionable insights — the intelligent choice for professionals managing complex documents.
